| Bulk Density (@60°C, lb/gal) | 7.4 |
| Viscosity (60°C, cSt) | 15 |
| RTFO Mass Change (%w/w) | -3.8 |
| Waxes (%w/w) | 9.0% |

THE DIFFERENCE IS THE PROCESS

POET is committed to developing new ways to replace petrochemicals with natural, bio-based products.

JIVE™, a lower-cost, more environmentally friendly and safer alternative to other products on the market, is POET's latest breakthrough. Due to unique characteristics derived from POET's patented BPX process, JIVE can be used in several ways - as a modifier, rejuvenator, or shingle coat additive. Give your asphalt new life today!
